Veterinary Technician Exchange Program

SFN 54165 (9/04)

This program allows veterinary technicians licensed in North Dakota to receive one hour of continuing education for each hour of participation in a clinical setting at another practice. A maximum of two hours during the 24 month renewal period is allowed.

Name: _____

Address: _____

Phone number: _____

E-mail address: _____

Practice where exchange occurred: _____

Practice address/phone: _____

Date of exchange: _____

On a separate sheet, list two cases you observed, including the name of the owner and patient. List the diagnosis and any tests performed leading to the diagnosis, and prescribed treatment.

On a separate sheet, for herd work or routine treatments that did not require tests, list the procedures and at least two new ideas you observed or learned, instead of cases.

This is a review of your time spent at another veterinary facility. Continuation of this program and CE credits will require completion of this form.
